ELECTRONIC PRESCRIBING SERVICE (EPS)

The Electronic Prescription Service (EPS) is an NHS service. It gives you the chance to change how your GP sends your prescription to the place you choose to get your medicines or appliances from.

What does this mean for you?

If you collect your repeat prescriptions from your GP you will not have to visit your GP practice to pick up your paper prescription. Instead, your GP will send it electronically to the place you choose, saving you time. Your medicines can be collected from a pharmacy near to where you live, work or shop. You may not have to wait as long at the pharmacy as there will be time for your repeat prescriptions to be ready before you arrive.

How can you use EPS?

You need to choose a place for your GP practice to electronically send your prescription to. This is called a *nomination*.

Can I change my nomination or cancel it and get a paper prescription?

Yes you can. If you don't want your prescription to be sent electronically, let us know.

Is EPS reliable, secure and confidential?

Yes. Your electronic prescription will be seen by the same people in GP practices, pharmacies and NHS prescription payment and fraud agencies that see your paper prescription now.

The following local pharmacies offer EPS. Tick to nominate your preferred pharmacy or, alternatively, provide the name and address of an alternative dispenser here:
